PROFESSIONAL SUMMARY

First-Class Computer & Robotics Education final year student with practical experience in capacity development, learning design, event administration, and delivery of global-standard workshops. Proven ability in coordinating learning initiatives, designing engaging learning materials, managing participant engagement, monitoring and reporting, and supporting communication campaigns. Passionate about advancing SDG 4 (Quality Education) and SDG 5 (Gender Equality) through inclusive learning opportunities and volunteerism. Seeking the UNV Capacity Development Intern role to support global workshops, eCampus management, learning content development, and learning initiatives for UN Volunteers.

EDUCATION

Bachelor of Science (B.Sc.) - Computer & Robotics Education

Yaba College of Technology (in Affiliation with University of Nigeria, Nsukka)

First Class Honours (4.57/5.00) – Expected Graduation: 2026

Senior Secondary School Leaving Certificate

Yewa (Egbado) College, Ilaro

CORE COMPETENCIES

- Exceptional verbal and written communication skills for diverse and multicultural audiences
- Outstanding organizational skills with proven ability to manage deadlines and multiple deliverables
- Strong collaboration and teamwork in cross-functional and international environments
- Excellent problem-solving and analytical abilities
- Proficiency in Microsoft Office Suite (PowerPoint, Word, Excel, Outlook, Teams, Forms, SharePoint) and online collaboration platforms
- Adept skill in Design tools such as Framer, Figma, Adobe Creative Suite, InDesign, Illustrator
- Experience in learning content design, workshop facilitation, event logistics, and monitoring & reporting
- Digital media literacy and creation of promotional materials and communication content for social media use

RELEVANT EXPERIENCE

IT Support & Technical Facilitator (TVET INITIATIVE)

Yaba College of Technology (YABATECH) | 20th April, 2026 – Present

- Supported capacity development by enrolling participants, managing training delivery, and maintaining accurate participant records and tracking systems
- Promoted gender inclusivity (SDG 5) to ensure adequate female representation in technical training programmes
- Managed the eCampus platform for YABATECH TVET skill training centre, updating information to ensure the accessibility and relevance of learning resources
- Coordinated and collaborated with government stakeholders and subject matter experts (SMEs) for seamless training administration and participant engagement
- Provided technical support during virtual events and training sessions

ICT Educator and Coding & Robotics Club Instructor

Atlantic Hall School | 28th April, 2025 – 27th June, 2025

- Designed and delivered engaging and accessible learning experiences and learning materials in coding and robotics
- Collaborated with subject matter experts to consolidate inputs, version-check, and finalize materials for diverse learners
- Analyzed feedback and evaluation results to prepare performance reports by rigorous data analysis, providing data-driven recommendations for continuous improvement
- Coached robotics team to 2nd place at APEN Robotics Competition through strategic planning and hands-on project-based learning
- Conducted assessments, performed monitoring and reporting, analyzed feedback, and prepared performance summaries to improve learning outcomes
- Designed promotional and instructional materials using Adobe Illustrator and InDesign and presented using EdTek interactive smart board

Robotics Teacher

Vivid Mind School | 29th January, 2024 – 28th March, 2024

- Developed and implemented hands-on learning projects that translated complex concepts into practical prototypes increasing class engagements by 75%
- Created inclusive learning environments focused on creativity, logical reasoning, and collaborative problem-solving
- Analyzed administered test result to monitor students' progress and determine lesson effectiveness
- Delivered practical lessons using visual technologies such as projector
- Designed and delivered engaging learning experiences, supporting content curation and the

development of learning materials

- Simplified technical content and facilitated knowledge transfer to build foundational skills in young learners

Faculty President

School of Technical Education, Yaba College of Technology | 2025 - 2026

- Led a 14-member executive board serving thousands of students, demonstrating strong organizational, communication, and stakeholder management skills
- Coordinated large-scale events and prepared event summaries with actionable insights and participant feedback for continuous improvement.
- Drove initiatives that enhanced practical learning outcomes by 50% through targeted capacity development programmes and workshops
- Handled facilitator scheduling, logistical arrangements, and event administration for over 25 virtual webinars and classes using platforms such as Zoom, Google Meet, and Calendly.
- Utilized automated outreach workflows (n8n, AWS Agent AI) and monitored social media trends to drive digital campaigns and manage association presence
- Led volunteer-driven initiatives and capacity development programmes serving thousands of students, mirroring approaches used to support UN Volunteers in global learning contexts
- Facilitated workshop for utilizing the school learning management system (LMS) and eLibrary with over 372 participants in the institution hall
- Coordinated virtual large-scale student activities, events, and knowledge-sharing sessions across multiple institution campus

Founder & Coordinator

Campus Robotics Club, Yaba College of Technology | 2024 - Present

- Transfer of knowledge and immediate application of skills from Nigeria's first Raspberry Pi Pico Workshop
- Prepared summaries of workshops, classes, webinars and tests providing actionable insights and data-driven recommendations
- Established and managed campus learning initiatives, organizing regular hybrid workshops and hands-on sessions while ensuring logistical arrangements

COMMUNICATION & ADVOCACY EXPERIENCE

- Designed promotional and instructional materials for workshops and student programmes using design tools such as InDesign, Adobe Illustrator, Canva and Framer for effective visual communication
- Delivered physical and virtual public presentations, technical training sessions, and facilitated large-group engagements

- Managed full-cycle event administration and logistics including scheduling, enrollments, participant coordination, and tracking attendance
- Championed community innovation and volunteerism initiatives aligned with UN Sustainable Development Goals
- Advocated for green environment by presenting a smart waste disposal system at SevenUp sustainability event
- Managed social media accounts professionally

WORKSHOPS & CONFERENCES

- **Sustainability Week (Seven-Up Bottling Company, 2025):** Participated in cross-sector dialogues on sustainable innovation
- **Industry & Academia Engagement Programme (YABATECH):** Collaborated on bridging academic theory and industry practice
- **Raspberry Pi Pico Workshop (2024):** Attended Nigeria's inaugural session and immediately transferred knowledge through campus training programmes

CERTIFICATES & AWARDS

- Noella Foundation Educational Grant (Life After School Summit)
- Google Technical Support Fundamentals
- Student Union Best Faculty President Award
- Student of the Year Award & Executive of the Year Award
- 1st Place – Interschool Debate Competition
- Best Teaching Practice Student Award (Vivid Mind School)
- Associated Board of the Royal Schools of Music (Grade 5)
- Official Recommendation Letters (Atlantic Hall School and Dean, Mr. Onipede Jaiyeola)

INTEREST

Passionate about the Intersection of education, technology, and sustainable development. Additionally, passionate about volunteerism and capacity building in global contexts
